

WHAT IS CLAIMED IS:

1. A trailer hitch cover assembly comprising:
 - a bumper fascia for attachment to a motor vehicle having an aperture for allowing a hitch tube to extend therethrough;
 - a main body adapted to be disposed over the hitch tube and adapted to allow insertion of a hitch into the hitch tube; and
 - a cover plate hingedly connected to either one of said main body and said bumper fascia for moving between a closed position to close said aperture to conceal the hitch tube and an open position to open said aperture to expose the hitch tube.
2. A trailer hitch cover assembly as set forth in claim 1 wherein said main body includes at least one deflectable tab for retaining said main body on the hitch tube.
3. A trailer hitch cover assembly as set forth in claim 1 wherein said main body further comprises at least one aperture extending transversely therethrough to

allow passage of a lock pin to secure said main body to the hitch tube.

4. A trailer hitch cover assembly as set forth in claim 1 wherein said main body comprises a front face having an opening extending longitudinally therethrough to allow insertion of the hitch into the hitch tube.

5. A trailer hitch cover assembly as set forth in claim 1 including a fascia plate operatively supported by said cover plate.

6. A trailer hitch cover assembly as set forth in claim 5 including indicia on a front face of said fascia plate.

7. A trailer hitch cover assembly as set forth in claim 5 including indicia on a rear face of either one of said fascia plate and said cover plate.

8. A trailer hitch cover assembly as set forth in claim 1 including a trim fascia operatively supported by said main body for covering a portion of said bumper fascia.

9. A trailer hitch cover assembly as set forth in claim 8 including at least one sensor operatively supported by said trim fascia.

10. A trailer hitch cover assembly as set forth in claim 8 including at least one light operatively supported by said trim fascia.

11. A trailer hitch cover assembly as set forth in claim 8 including at least one camera operatively supported by said trim fascia.

12. A trailer hitch cover assembly as set forth in claim 10 including a display connected to said at least one camera.

13. A trailer hitch cover assembly as set forth in claim 12 wherein said display is located in a rearview mirror.

14. A trailer hitch cover assembly as set forth in claim 8 including a latch operatively supported by said trim fascia.

15. A trailer hitch cover assembly as set forth in claim 8 including a striker operatively supported by said cover plate to engage and disengage said latch.

16. A trailer hitch cover assembly as set forth in claim 1 including a cover receiver connected to said bumper fascia and hingedly connected to said cover plate.

17. A trailer hitch cover assembly as set forth in claim 16 including a bonding member disposed between said cover receiver and said bumper fascia.

18. A trailer hitch cover assembly as set forth in claim 1 including at least one hinge member operatively supported by said bumper fascia to hingedly connect said cover plate to said bumper fascia.

19. A trailer hitch cover assembly as set forth in claim 18 including a locking pin cooperating with said at least one hinge member.

20. A trailer hitch cover assembly for a motor vehicle comprising:

a trim fascia for covering a portion of a bumper fascia of a motor vehicle having an aperture for allowing a hitch tube to extend therethrough;

a main body adapted to be disposed over the hitch tube and adapted to allow insertion of a hitch into the hitch tube;

a cover plate hingedly connected to said main body for moving between a closed position to close the hitch tube and an open position to open the hitch tube to allow insertion of the hitch into the hitch tube; and

a fascia plate operatively supported by said cover plate for moving between a closed position to close said aperture to conceal the hitch tube and an open position to open said aperture to expose the hitch tube.
